

Vet's First Choice

To ensure your pet's prescriptions are filled accurately and quickly, we've chosen Vet's First Choice (VFC) as our trusted pharmacy partner.

Ordering through VFC guarantees that your pet will receive compounded medications (liquids, transdermal gels, etc.) that are verified by us and produced with the highest manufacturing standards.

How to Use Vet's First Choice

If we have prescribed a medication or prescription diet for your pet through VFC, you will receive an email with instructions on how to place your order.

- **We recommend that you sign up for auto-ship** when placing your order. You can change the delivery date at any time, but by choosing auto-ship you get:
 - Complimentary shipping on most medications and diets
 - A 10% discount on compounded medications
- Once you place your order, we will authorize the initial prescription and indicate how many refills are available.
 - **Pets on chronic medications need to be examined by a doctor at least once a year for refill authorizations to continue.**
- In some cases, **medication or food may take 5-7 business days to be delivered, so it is important to request a refill about a week before you need it.** Auto-ship will take the worry out of having to remember this, ensuring uninterrupted management of your pet's condition.

Customer Service

We chose VFC because of their excellent manufacturing standards and great customer service. Call 1-888-280-2221 to speak to their customer service department.

Feel free to call us if you have any questions about using Vet's First Choice.

Using Other Pharmacies

If you wish to purchase medications or food from another pharmacy, we are happy to mail you a written prescription.

We are not able to authorize prescriptions to outside pharmacies by phone or fax.

When you choose to use VFC, we are able to fill prescriptions and authorize refills as quickly and efficiently as possible. This helps us to keep costs lower across the board, while providing you with the best service and quality.

We have chosen Vet's First Choice because we feel that they do the best job as a veterinary pharmacy. Safety and efficacy are especially important when dealing with compounded medications.

Vet's First Choice continues to impress us with their attention to detail and their commitment to improving the medication experience for both people and pets.
